UNION REGULATIONS

To assist you in planning for your participation in the Exchange exhibition, we are certain you will appreciate knowing in advance that union labor will be required for certain aspects of exhibit handling. To help you understand the jurisdictions of the various unions, we recommend you read the following information.

DECORATOR'S UNION

Members of this union claim jurisdiction over all set-up and dismantling of exhibits including signs and laying of carpet. This does not apply to the unpacking and placement of your merchandise. Exhibitors may set up exhibit display if one person can accomplish the task in less than half an hour without the use of tools. If exhibit preparation, installation or dismantling requires more than half an hour, you must use union personnel supplied by the official decoration contractor. When union labor is required, you may provide your company personnel to work along with a union installer in Anaheim on a one-to-one basis.

TEAMSTERS UNION

Members of this union claim jurisdiction over the operation of all material handling, all unloading and reloading, and handling of empty containers. An exhibitor may move material that they are able to carry by hand by one person in one trip, without the use of dollies, hand trucks, or other mechanical equipment.

ELECTRICAL UNION

Members of this union claim jurisdiction for hardwiring ordered outlets to the line side of the exhibitors' equipment and wiring of caps over 120 volts to the raw cord feeding exhibitors' equipment. All plugs over 120 volts will be plugged in by electrical union personnel. Exhibitors may plug in their own plugs of 120 volts to their ordered outlets.

BOOTH CONSTRUCTION GUIDELINES

Space dimensions shown on floor plan are from center line of booth equipment such as side rails and/or back drape. Exhibit structures must be constructed to allow sufficient tolerance on each side for this equipment and for utility service at rear of booth. **Table and chairs are NOT included unless you purchase a FURNISHED booth package.** You will be provided with a service kit ordering form prior to the show to order additional furniture for your booth.

Standard Booth (10x10)

Definition: One or more standard units in a straight line. If display is over 4 feet high, it is to be confined to an area within 5 feet of the back line.

Depth: All display fixtures over 4 feet in height and placed within 10 lineal feet of an adjoining exhibit, must be confined to that area of the exhibitor's space which is within 5 feet of the back line.

Intent: Each exhibitor is entitled to a reasonable sightline from the aisle regardless of the size of his exhibit. Exhibitors with larger space (30 lineal feet or more) should also be able to effectively use as much of the total floor space as possible as long as they do not interfere with the rights of others. The limitation on display fixtures over 4 feet and within 10 lineal feet of a neighboring exhibit is intended to accomplish both of these aims.

Height: All standard booths will be confined to a maximum height of 8 feet.

Intent: Any portion of an exhibit extending above the 8 feet of high draped booth background will detract from the overall impact of the exhibit directly behind that booth regardless of how the rear of the offending exhibit is finished.

END CAP/PENINSULA BOOTH

Definition: End cap booths (two or more booths side by side at the end of an aisle) may not exceed the back wall height of 8 feet in the center 10 feet. Booths may also not exceed the back wall height of 4 feet in the outer 5 feet.

Intent: Each exhibitor is entitled to a reasonable sightline from the aisles.

Definition: Island booths are a collection of four or more 10 ft. x 10 ft. booths contracted by one exhibitor with 360 degree aisle access. Since island booths are automatically separated by the width of an aisle from all neighboring exhibits, the 8 foot height limitation does not apply. Full use of the floor space is permitted; however, any back walls or drapes set along the booth perimeter may not be higher than 4 feet.

Intent: Island booths are designed to allow for exhibitors to enjoy a greater presence at the show.
